## "Clean Record" Aired Ducks 3109 Roll Calls

"By their works ye shall know them."  
Senator Will R. Sharkey, who has been a member of the California Legislature since 1915, having pointed to his record as a reason why the voters of this district should send him back to the public trough for another four years, is bound to stand or fall on that very record.

And this newspaper serves notice right now on Mr. Sharkey and on all those who may seek to explain his conduct and apologize for his betrayal of the people, that we are going to continue to "harp" on that record from now until this campaign closes.

### RECORD IS PEOPLE'S BUSINESS

Mr. Sharkey's legislative career is a matter that is a legitimate subject of the closest scrutiny of the people of this county and district who have paid his salary since 1915. And no wildest stretch of the imagination can translate our strictures of Mr. Sharkey's record into personalities.

### ABSENT FROM ROLL CALL 3190 TIMES

All the charges which we have made against Mr. Sharkey and which we shall reiterate, and any other charges (and there are others) which we may in the future make, shall be from the record.

A careful, painstaking check shows that from 1915 to 1927 Senator Sharkey was absent from roll call 3109 times.

We ask you, Mr. Sharkey, where were you and what were you doing that you were not present when your name was called?

### WHAT WERE YOU DOING?

Mr. Sharkey, were you attending to the people's business, were you guarding "the interests of the men and women who toil?"

In 1915 you were absent 412 times. In 1917 you were absent 489 times. In 1919 you were absent 358 times. In 1925 you were absent 248 times. And in 1927 you were absent, Mr. Sharkey, 631 times!

In the last named year, which was the year when your pet measure, the grab bill, Senate Bill No. 846, was introduced, you were absent from more than one-third of the roll calls.

### NURSES TOLL BRIDGE BILL

But an interesting fact in connection with the 1927 session is that in spite of the 631 times that you were absent when your name was called, the Journal of the Senate shows

that never were you absent when any vote was being taken on Senate Bill No. 846.

Senate Bill No. 846, now well-known to the people of this district as your toll bridge bill, was introduced by you, Mr. Sharkey, in the second half of the legislative session of 1927.

You introduced Senate Bill No. 846, which would have permitted the franchise of the American Toll Bridge Co. to be extended to a period of 50 years and which would have resulted in taking from the pockets of the people of Contra Costa and Solano counties 25 to 50 million dollars.

The bill came out of the committee rooms on March 18. It was read the second time on March 21.

### BAD BILL PASSES ON LAST DAY

After many roll calls on this bill it finally was jammed through the Senate on April 29, 1927. On the same day, the Senate, significantly, as if ashamed of passing a bill so vicious and so infamous, adjourned. The record of the Senate does not say whether your body adjourned in shame or sorrow.

And now, Mr. Sharkey, once again we ask you to answer this question under your oath as a State Senator, do you dare say that you were serving the best "interests of the men and women who labor" when you introduced, sponsored and played wet nurse to Senate Bill No. 846, a bill which we repeat, would have taken from the pockets of the people of the two counties 25 to 50 million dollars, and resulted in that gift being made to the American Toll Bridge company?

In fact the bill was so bad and so vicious and so hurtful to the interests of the people that Governor Young promptly vetoed it.

### BAD ODOR OF BILL STATEWIDE

While the bill was making its sinister progress through the legislative channels at Sacramento it created such a bad odor throughout the State of California that some of the San Francisco newspapers printed editorials denouncing it for its infamy and sinful purpose.

The Record-Herald will, before the campaign closes, reproduce some of these editorials for the edification of its readers.

### ANSWER QUESTIONS, MR. SHARKEY!

Once again, we ask you as a servant of the people, not to evade the questions; not to offer lame excuses but to stand up like a man and give direct answers to pertinent questions firmly put.

## EARLY COUNT SHOWS HUGE DRY BALLOT

COLUMBUS, O., Aug. 14.—(U.P.) Returns from 1407 precincts in the state primary election tonight gave:

For U. S. Senator—Republican, (short term) Congressman Theodore E. Burton, Cleveland, 31,094; Judge Carrington, T. Marshall, Zanesville, 14,814.

For Governor—Republican, Congressman James T. Borg, 28,000; Myers, Cooper, Cincinnati, 28,791; Edward Turner, wet advocate, 15,015.

Ballots from 1472 precincts gave for governor, democrat, congressman, Martin Davies Kent, 12,384; Earl D. Bloom, Bowling Green, 5,717; Peter Witt, Cleveland, wet, 4,402; James C. Beatty, East Liverpool, 31,074; Herman Witter, Canton, 2,019.

COLUMBUS, O., Aug. 14.—(U.P.) Voters of Ohio went to the polls in the statewide primary today and indirectly expressed their "wet and dry" sentiments.

The prevalence of sentiment—whether wet or dry—will be revealed when returns in the republican and democrat gubernatorial contests are compiled. The primary climaxed some of the most bitter campaigns in state history, involving not only the wet and dry issue, but economy in state government, public utilities. Continued on Page Eight

## Pledges Aid To Martinez Parks

Co-operation of Richmond park and playground officials in any park program was pledged the city yesterday by John O. Miller, director of Richmond's parks and playgrounds, in an address before the Martinez Exchange club. Miller told of the phenomenal growth of supervised parks in the government movement for recreational places for its citizens. He said that in 1922 there were 505 supervised parks and in 1927 there were 815. The outlay for the program was \$32,000,000. Miller favors the program of state legislation which will require subdividers to set aside areas for parks and playgrounds.

## Driver Arrested After Collision

William A. Murphy of 1315 Fifteenth street, Sacramento, injured in an accident Monday on the state highway near the Fairmeade golf club, after his car is said to have forced the machine of Timothy McDonald of San Pablo off the road, was yesterday arrested on a charge of driving while under the influence of liquor and was taken to the county hospital in Martinez.

Murphy was treated at the Abbott Emergency hospital for lacerations and removed to the Cottage hospital. The complaint was sworn to by McDonald, who is sworn the fact that his car overturned several times, was uninjured.

## Letters Filed In Pace Estate

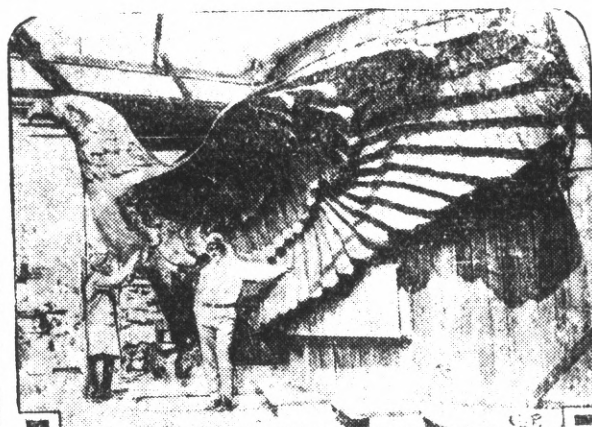

Attorney Clare Horner yesterday filed letters of testamentary in the estate of the late William Edward Pace, for the widow, Mrs. Mary Pace. The estate, valued at approximately \$8500, is composed of real property.

There are three minor children, Eleanor, Muriel and William.

## TRIAL FOR NEGRO

Leon Jones, colored, charged with a statutory offense, will appear before Justice of the Peace Arthur A. Alstrom this morning at 10 o'clock for preliminary hearing. He is represented by Attorney Leo Sullivan.

## Eagle to Top Coolidge Dam

THE CLAY MODEL for the eagle that will be placed on top of the Coolidge Dam in Arizona is being given the finishing touches. It measures 33 feet, 9 inches from tip to tip of the wings and stands 10 feet, 7 inches high. Forty tons of concrete will be used to complete the eagle.

## WOMAN DEFILES GOVERNMENT; ARM GUARDS PATROL ESTATE

By STANLEY BAILEY  
United Press Staff Correspondent  
LOS ANGELES, Aug. 14.—(U.P.)—An elderly woman today waged a lone fight against approval of 1925 civilization and in protecting her vast virgin estate, her representatives during the United States government.

The woman is Mrs. May R. Rindge, the estate consists of approximately 30,000 acres of forest and brush lands, running for miles along the Pacific coast. It is mostly wilderness, where deer and other wild animals abound. She inherited the property from a long line of forebears who obtained it through a Spanish grant. For years Mrs. Rindge fought back the encroachments of beach cabins and attempts of tourists to enjoy her property. She met with only partial success.

A plea "for federal deputies at once to force entrance" was sent to Washington tonight by L. C. H.

## Youth Denied Sport Suicides

OAKLAND, Aug. 14.—(U.P.)—Deprived of the chance to participate in sports the same as other youths was believed to have been the reason that Charles Wilcox, 17, hung himself to a rafter in the basement of his home.

Wilcox, son of a well-known man and student of St. Mary's college high school in Berkeley, had a week heart for ten years and this was believed the cause for his act. His body was found by his mother and younger sister.

## BUILDING PERMITS

Recent permits issued by Building Inspector A. J. Hurley are as follows:

J. B. Sartain, build addition to garage in Thirty-first street between Clinton and Garvin avenues at a cost of \$50; Nelson Darling, erect chicken house at cost of \$25 in Fifth street between Pennsylvania and Lucas avenues; Lulu Rodgers, build garage at cost \$75 in Twentieth street between Blissell and Chanslor avenues.

## DRIVER FINED \$5

Joe Urban, of 2644 Thirty-fifth street, Oakland, was yesterday fined \$5 by Justice of the Peace Arthur A. Alstrom on a charge of having only one headlight on his car. State Traffic Officer Charles H. Nissen made the arrest.

## KIWANIS MEETING

A closed business session of the Richmond Kiwanis club will be held this noon at Hotel Carquinez according to President Theodore Madison. A representative attendance is desired.

## DAMAGE TOLL IN BIG GALE ON INCREASE

MIAMI, Fla., Aug. 14.—(U.P.)—Serious conditions menaced the Lake Okechobee district tonight according to advices received here. William Driggs, editor of a paper there, told the United Press that conditions in the lake district approached conditions in September 1925 when many lives were lost.

TALLAHASSEE, Fla., Aug. 14.—(U.P.)—Considerable damage to property was done by a tropical disturbance which struck Tallahassee and surrounding country today on its inland swing from the gulf of Mexico. Telephone service was cut off for towns within a radius of 6 miles.

Ancient live oaks and tall pines were blown across highways and railway tracks. Crews were at work late today clearing them away.

More than ten houses were blown down at Paduca Springs, on Dickson Bay, reports here said, but no one was injured. Stocks were damaged when high water flooded the business district. Roofs were blown off houses at (Continued on Page Eight)

## NEW ATLANTIC HOP TO START

ROCKFORD, Ill., Aug. 14.—(U.P.)—Bert Hassell announced tonight that weather conditions permitting he would hop at dawn Wednesday in his Stinson-Detroler monoplane on a proposed three-stop flight to Stockholm.

P. Sramer, U. S. aviation inspector, will accompany Hassell and will act as navigator.

It will be Hassell's second try to get away in the plane. In an attempted hop a few weeks ago the plane crashed and was damaged.

## Councilman's Son Wins Scholarship

Walter V. Black, son of Councilman George Black and an employee of the Standard Oil company, has been awarded a scholarship in agriculture offered by the Western Sulphur company and will attend Oregon State college the coming year to work on his master's degree. Black is an O. S. C. graduate majoring in soil chemistry.

## CHURCH CLUB TO MEET

The Richmond Church Fellowship will meet in the First Methodist church, El Cerrito, on August 23. There will be a dinner served at 6:30 o'clock and an excellent program is being arranged. Rev. Aldis Webb, pastor of the First Christian church, will be chairman of the day, according to an announcement made yesterday by C. C. Kratzer, president.

## Husband and Wife

We live on the second floor of a two-family house and my husband always walks so heavily that the people below complain constantly. —Mrs. S. L. B.

## Hot off the Griddle

AVIATION IS MAKING THE whole world kin, and will do more than all the diplomats on earth to wipe out racial antipathies. Jealousies are forgotten when brilliant courage holds the stage. Lindbergh's flight won the heart of France at a time when feeling ran high against us. His sensational air trip to Mexico and Central America made the little nations in the tropics forget their distrust of big, powerful America. And now we discover that the two gallant aviators in the Polish plane were former war enemies—Kubala flew with the Austrians and Idzikowski was a Polish pilot. Aviation brought them together.

A CORPORATION WHICH WAS to have built New York's "dream hotel" of twenty-eight stories at a cost of \$15,000,000, and which did not get any further than to dig a \$400,000 hole in the ground before it went broke, gets its post mortem in the court, which finds that the officers and directors are not guilty of misconduct. Great enterprises are not started by sending slick salesmen with diamond stickpins and flashy clothes to sell stock for something. Continued on Page Eight

## SETTLEMENT OF R. R. ROW SEEN

CHICAGO, Aug. 14.—(U.P.)—Confidence that the wage dispute between railroad trainmen and officials of Western roads would be settled through arbitration before any general strike order is issued, was expressed by officials of the Brotherhood of Railroad Trainmen.

The strike vote was started today but the result will not be made known until September 2, it was announced. Even should the membership vote to favor a strike, officials here said another attempt at arbitration undoubtedly would be made before a walkout occurs. Four unsuccessful attempts to arbitrate the present dispute already have been made.

Representatives of the trainmen who attended the arbitration conference here last week which failed to effect an agreement, took strike ballots with them when they departed for their homes. Distributing 539 of the ballots among the various locals was well underway today.

### DEGREE CONFERRED

Alpha lodge of Masons last night conferred the first degree on a class of candidates with Homer W. Patterson in charge of the work. Plans were discussed for the observance of past masters' night on September 25. J. W. Smiley, worshipful master, presided over the business meeting.

## Car Service To Schools Inadequate

Confusion in handling high school transportation is evident during the first opening days. Yesterday, sixty-one students crowded the 2:55 Key System car on Twenty-third street. All those who arrived later waited half an hour for the following car.

More than one hundred and sixty-five young people walked at least a mile on Twenty-third street alone. They greeted more fortunate companions who drove with friends in automobiles. Thirteen such cars, averaging a load of four persons each, passed along the avenue within fifteen minutes. Two one-seater Fords were jammed with five students.

At the high school, twenty-two machines belonging to students and faculty members were parked. Equally haphazardous is morning transportation. The last morning car making the high school by the opening hour, 8:15 leaves Twenty-third and Macdonald at 7:44. The next car leaves at 8:14.

About twenty student living in Point Richmond are forced to leave there at 7:10 in order to reach the high school at quarter after eight.

Approximately eighty Pinole children are cared for by adequate bus service.

There will probably be nine hundred pupils enrolled in the Richmond Union high school.

## POLICE TO WAR ON BAD BRAKES

Eastbay motorists are taking time by the forelock and are having their brakes adjusted before the opening of the forth-coming brake testing campaign, according to the advisers reaching the Eastbay Safety Council from garages in the various parts in the communities.

The garages have been supplied with stickers by the Eastbay Safety Council showing that brakes are in good condition and these are being affixed to machines as rapidly as the brakes are brought within the law.

The enforcement part of the campaign will begin next Monday when the squads of police will take the field in unexpected places in Oakland, Berkeley, Piedmont, Richmond, San Leandro, Hayward and outlying sections and will stop at random, automobiles. Continued on Page Eight

THE REDS MEET AGAIN

These good people who think that Russia has reformed and that the reds are turning pink, would do well to read the procedure of the Third Communist Internationale, now in progress in Moscow.

Among the things which are being discussed and put forward are a reiteration of the program of world revolution until a world dictatorship of communists is established; a special attention to the development of communistic movement in India and China "defensive measures" against the wars on the communists planned by capitalism; encouragement of the revolutionary movement in all colonies belonging to the nations of Europe and to the United States of America.

This is undoubtedly an ambitious program but it is the one which the reds have been following ever since the inception of the movement in Russia.

One of the American delegates, according to the news dispatches, volunteered the statement that great progress was anticipated in America during the next few years, especially among the negroes in the south. With the starting of so many factories in the south and the industrialization of the negro he declared that high hopes were entertained that, he negro could be brought into the communists' ranks. We are all inclined to view any danger of outbreaks of communism in the United States as a trifle far fetched but it is at the same time true that the less we have to do with the government which fosters communism the better.

The danger in America is not so much from the out and out communist perhaps as from those self-styled liberals who are spreading doctrines which strike at the very roots of our constitutional traditions and only prepare the ground for even more radical doctrines which may spring up among us should we lose our respect for the American government.

If you are going to run for anything at all you had better place your petition in the hands of the county supervisors this week, because next week it will be too late. We do not want any democrat residing in this county to fail to run for something, and at the present moment there are a few who are not.

Bob Quillan says that the reason the old-fashioned girl wasn't wild at 18 was because by that time she had a baby on each hip. Yes, and that usually made the neighbors wild.

Of course the modern woman doesn't have any use for a rolling pin, but that makes it a lot safer for friend husband when he gets home from the ball park late for dinner.

AND THE WORST IS YET TO COME

Julie Says—

The younger generation is a ready busy with the weighty problems of just what clothes to take back to school and college. This little trick is ideal for the purpose. A soft tweed in three tones, central in effect, makes a good background for the effective embroidery in red, light and dark blue. The collar and cuffs are double and wide over blue. The tie is red. Visible pockets are set along the embroidered lines. The skirt is created.

Agriculture may be as profitable as some economists say it is, but you don't notice any capitalists organizing mergers of farms.

BEAUTY  
By LAURA LANE

Dear Miss Lane,  
 I'm only twenty-six but my hair is beginning to turn gray and quite naturally, I'm terribly upset about it. My hair has always been very dark brown, and as a result the white hairs show up only too clearly. Would you suggest dying it, or is there some other treatment that would help?  
 It may be a bit disconcerting to sprout gray hairs suddenly, but before taking any steps in the matter why not consider carefully whether or not gray hair will not become you? Remember that premature grayness does not necessarily age a woman. On the other hand, it often softens her, making it more youthful and attractive than ever. If you have deep smooth skin and dark eyes I would advise you to leave nature alone. But then, I must admit, I have always had more or less of a secret passion for white hair framing a young face. It is startling and, if you dress correctly, you can be very striking in an unusual way.

However, there is no entirely reason you should let your hair go white just because I happen to have a fancy for it. My only advice if you want to keep it dark is to make every effort to keep it healthy and well-cared for and if you want it dyed, to go to an expert. Don't abuse all else, fool around with home-made preparations. The results may be downright disastrous. If you don't feel you can spend the money to have an expert dye it for you, just remember that you may have to spend as much and more to have your painstaking efforts rectified.

But, do make sure white hair won't be becoming to you before you resort to dyes.

Even our astute sports editor can't explain to his wife why there are corners in rings at fights.

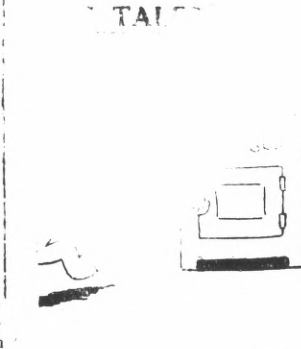

The old man who wanted to live in a house by the side of the road didn't own a watermelon patch.

In Trouble

ROScoe (Fatty) ARBUCKLE, one time funny man of the movies, is in trouble again. His second wife, Doris Deane Arbuckle, has filed suit for divorce charging that the once famous film comic was cruel and abusive in the extreme. She's asking \$750 a week alimony.

What surprises us is that the girl friends should start this kindless feud in the summer time. Frozen assets in closed bank are reported to be liquidating rapidly. This weather would thaw anything.

## Richmond Women Will Play Big Part In Moose Confab

Richmond women of Mooseheart Legion of the World will have a very prominent and active part in the program and events scheduled for the first annual California Moose Convocation to be staged at Watsonville, September 1, 2, and 3.

Three outstanding figures in the women's organization allied with the Local Order of Moose in California are Marie Lee Kelly, organizer of Richmond chapter, first Senior regent and present regent as well as secretary-treasurer of the Northern California District Association, Watsonville, and Mrs. F. H. Hahn, regent and Daily Mayo, Junior regent.

Then there will be the famous drill team of Richmond chapter which the women believe will carry off first honors in the drill team contest to feature the Watsonville meeting.

And the men of Richmond lodge will also be active at the convocation. Dictator Philip Barry and Vice-Dictator Edward Ridley announce that the men's drill team and band are preparing to enter the men's drill team and band contests to win.

The state convention marks an epoch in California Moosehood. It is the first state wide gathering ever held. Ten thousand members of the order, their wives and families are scheduled to attend.

Between five and one hundred Richmond folk will be on hand. The convocation opens Saturday, September 1 and closes Monday, September 3. Labor Day, with a parade drill combining both Moose and Labor Day divisions, a beauty contest in which one hundred of the most attractive young women in the state will participate for a \$250 cash prize and a grand public ball in the evening.

Watsonville will appear in holiday dress for the occasion, and will be litigated with multicolored lights during the three bright nights. The Watsonville Lodge of Moose under Dictator J. R. Gregory, has arranged to present every visiting member of the order with a box of famous Paterson Valley apples and a crate of far-famed Watsonville lettuce.

Walter E. Gibson of Oakland Lodge is director general of the convocation. An executive committee and a general committee, comprising the officers of every lodge in California and representatives of the women's chapters, have the details of the convention in charge.

Eleven delegates of the Richmond Wesley Methodist church attended a banquet in Oakland Monday evening honoring Miss A. Smithers. Miss Smithers, compiler of the graded lessons used in the church here, was one of the speakers at the World Sunday school convention held in Los Angeles recently. The banquet was sponsored by the Northern California group of Methodist churches.

Those who attended the meal included: Mr. and Mrs. Charles Wolfe, Mr. and Mrs. William Hosking, Mrs. Genevieve Stribley, Mrs. Ralph L. Pennington, Miss Nina Moody, Miss Frances Freethy, Mrs. M. Hazelton and Mr. and Mrs. Charles G. Lindemann.

Former Residents Are Guests Of Daughter Here

Rev. E. T. Nesbit, pastor of the First Christian church of Merced and Mrs. Nesbit are the guests this week of Mrs. M. F. McCrary and Miss Nannie Nesbit, sisters of Nesbit.

The Nesbits, who are former Richmond residents, have been visiting their daughter, Miss Mildred Nesbit in Pasadena for the past month. Miss Nesbit taught in high school at one time. During their southern stay they attended the World Sunday School convention.

Two other guests of Mrs. McCrary and Miss Nesbit are their sister-in-law, Mrs. Otis B. Nesbit and her daughter, Miss Algeria of Gary, Indiana. Miss Nesbit has spent the summer near Lake Tahoe, where she was dramatic counselor at a girls' camp. She teaches in the Gary public schools where her father, Dr. Nesbit is medical director.

Rev. and Mrs. Nesbit plan to remain in Richmond until the first of September. Mrs. Otis Nesbit and Algeria are returning to the east about August 23.

## KANSAS CITY STIRRED OVER NEW OIL BOOM

OXFORD, Kan., Aug. 14.—(U.P.)—Although the excitement of one of the largest oil booms in Kansas is history and the production of the townsite and nearby pools is gradually declining, the growth and prosperity which it could gold shovels upon a few favorably located wells.

Few cities have been so favored as has this town. Those pools which include a large share of the townsite, at their peak have produced between twenty and twenty-five thousand barrels of oil a day.

The rich Churchill pool, three miles north of Oxford, has held up its production better than the other two, and although it is now two and one-half years old it still is producing an average of more than 10,000 barrels of oil daily. The entire production of the Churchill field, in which Roxana owns 73 producers and other companies 10, is from the Stalaker sand.

The townsite pool, which was opened nearly a year later, is leading the Oxford pools now with a total daily average of 11,000 barrels. Ninety-two wells are contributing to this production. A few wells are producing only from one to five barrels daily, while others are making between four and five hundred barrels.

The gradual decline in production has brought no corresponding decrease in population in the town of Oxford. Different from many oil booms the oil excitement brought few of the rougher elements to town, and police regulations were so strict that those few did not find it advantageous to remain. Business men have enjoyed increased business, homeowners have rented rooms or turned their homes into boarding houses, and in general the town continues to be prosperous. When the oil began to decline not more than a few hundred people left Oxford, and they left behind them a horde of dollars that more than made up for their going. The business men had leased townsite land, the farmers had sold acreage, and many of them had grown into millions overnight.

As for Oxford, the city treasury has a surplus in its treasury gained for issuing licenses to drill on the townsite, while there is now pending before the State

Supreme Court a lawsuit for over \$100,000 damages, resulting from companies violating city ordinances. The city has won this case in all the lower courts, and if the supreme court decides in its favor, this little town will have a sum of money that might well be envied by many larger municipalities.

### Hubby Protests As Bride Orders Furniture Moved

MARTINEZ, Aug. 14.—"Will you send up this afternoon and get the furniture. Mr. — and I have separated and he told me to phone you to come and get the things. I'm leaving the door unlocked and won't be responsible for them."

That was the message received by a local furniture dealer yesterday afternoon. He obeyed instructions and found the front door at the address given unlocked. He proceeded to move out the furniture and that was that until—friend husband returned home.

Then there was a ruckus. It seems, according to the youthful husband, that he hadn't agreed to any such procedure and that his little help-mate, after a domestic fuss had decided to summarily terminate her matrimonial career.

So—the matter rests in status quo, pending the reported coming of the bride's mother from the north to institute annulment proceedings on the ground that the girl was not of age when she was married.

### Judge Koford Wins Backing Of Local Men

Contra Costa attorneys and business men are giving special attention in the present political campaign to the contest for justice of the District Court of Appeals. This will be settled at the primaries, August 28.

Judge Joseph S. Koford, presiding justice of the District Court of Appeals, is a candidate for retention in the office. Opposing him is Frank Deasy, a San Francisco justice of the peace.

The district court of appeal is devoted to consideration of cases appealed from the superior courts of ten California counties, including Contra Costa county. Those urging Koford's candidacy point out the fact that in order to properly administer such an important position, a judge must have had years of experience as a superior court judge.

Judge Koford served as a superior judge in Alameda county with marked distinction. After ten years' service there, he was elevated by Governor Young to the District Court of Appeal in January, 1927.

Mrs. Mattie A. Chandler, mayor of Richmond, is one of Koford's official sponsors, another is Charles S. Renwick, local manufacturer. Attorney J. Rodgers of Martinez, and Roy V. Davis, Antioch, banker, are others.

The United Veterans of the Republic, a national organization of ex-service men, has given Judge Koford hearty endorsement, both in San Francisco and in Alameda counties.

## CULT SEEKING "DIVINE LIGHT" TO CURE WORLD

DULUTH, Minn., Aug. 14.—(U.P.)—Vernon Ewing, Tamara, Minn., optometrist, who by communal prayer meetings during the last three years has sought vainly for a new revelation from God, planned today a meeting of all classes of religions by which he hopes to "bring forth the true light of our Maker."

The public meeting is to be held in Lincoln park here, beginning at 8 a. m. Sunday, September 2, and will continue through the entire day.

Ewing, who three years ago conducted the first public "silent prayer" said at least 25 denominations would be represented in the demonstration.

"I for one shall be there," the optometrist wrote from his shop in Tamara, "seeking the true light of God, and I shall be obliged to any religious class having it, to bring it to the meeting." Ewing apparently believes there will be an actual demonstration of divine power. He said each representative will be allowed an allotted time in which to produce "the light."

"Representatives will do well to be at Lincoln park early on that day," Ewing said. "Specially if they have light which may help dispense the darkness."

Three years ago the bald, rhyt optometrist issued the call for the first silent prayer saying "Surely if enough devout children of God gather together and ask for a sign of His presence He will not fail them."

On the day appointed for the meeting Ewing and a handful of followers, recruited from Minnesota and nearby states, gathered in a poplar grove at Tamara and stood for 15 minutes in silent prayer. The surrounding hills were lined with curious folk and newspaper correspondents who likewise remained silent.

At the end of the quarter hour Ewing stepped from the group and said "There was no sign from God."

The following year he again sent out a call, this time for a "wordless" year. The 20 or 30 followers of the optometrist were cautioned not to ask for any particular signal. God would let each person know. Ewing said, that He was near.

Again there was no sign. The meeting this year, Ewing explained, is based on the same hopes which existed in the two previous meetings only now God is expected to light the world through some chosen person.

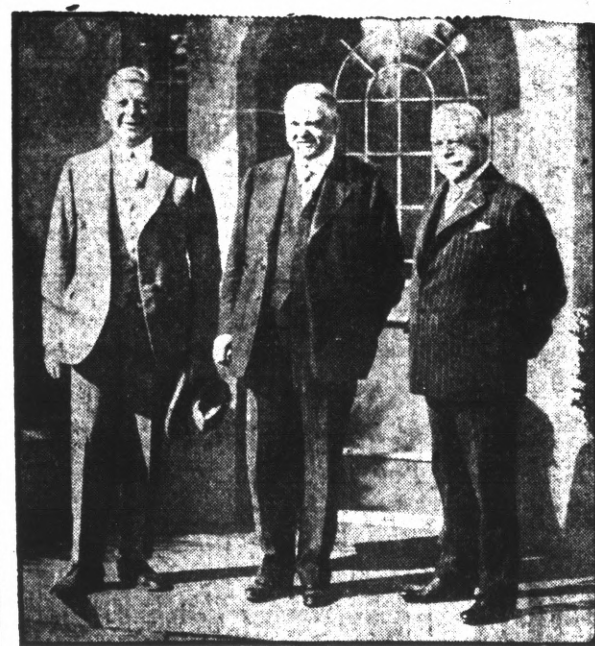

Ewing in no way suggests the religious. He may be described best as an average business man. He is married, has a number of children, and conducts a successful business. He speaks quietly and earnestly on what he considers the ills of mankind.

"The world is sick," he said, "I firmly believe that if enough persons gather together and devoutly ask God to reveal Himself and dispel the darkness, He will answer their prayers."

### 200,000 War Refugees Left

GENEVA, Aug. 14.—(U.P.)—The Great War, and its various peace adjustments, left stranded over the face of Europe and Asia, more than 2,000,000 refugees.

Today, with the exception of about 200,000, all of the three million people that were left without a home and without a country, have been definitely settled in new surroundings on a self-supporting basis.

The task, one of the largest that the League of Nations has accomplished, and one about which the least is really known.

These human derelicts, without home and country, which the war created, can be roughly divided into three classes.

First, with the breakup of the old Russian regime and the arrival of the Bolsheviks to power, some 1,500,000 Russians were left stranded.

The second great category was created by the treaty of Lausanne under the terms of which it was agreed that all of the Greek residents of Asia Minor were to be uprooted from their homes and sent back to Greece while the Turks that still remained in Greece were similarly to be torn from the soil that had been home to be sent back to Turkey.

That was without precedent in history. It involved nearly 1,200,000 Greeks from Asia and about 400,000 Turks from Greece.

All of these are being steadily

settled down on a self-supporting basis under the auspices of the League and with the help of an international loan floated by the Greeks with the League's backing.

The problem of settling the Russian refugees presented difficulties of a different character because of the manner in which they were scattered over Europe.

### Tax Official Talks To Lions

Steps to be taken by the California Taxpayers association to secure a more economical spending of the people's money, were explained to the members of the Lions club in the Hotel Carquinez yesterday by W. H. Hanlon, committee member of the commission and county superintendent of schools. He also told of the proposed plan for a county unit in educational control by which the schools of the county would be taken from the present district control and placed in charge of a county board.

Mrs. Eliza Glibbreath Calfee sang several solos and was accompanied by John Toffoli, accordionist, who also played several selections. Asa Best, laundryman, was received as a new member. Bert X. Tucker, principal of the Richmond Union high school, thanked the members of the service club for the floral piece sent for the opening of the new school building. J. O. Ford was chairman of the day.

## THREE DIE AS REDWOOD CITY HOME IS RAZED

REDWOOD CITY, Calif., Aug. 14.—(U.P.)—Three members of a family were killed today when their home here today while two others and two household servants escaped jumping from the upper floor of their home.

Mrs. Lena Koff, wife of a millionaire San Francisco real estate man, her seven year old son, Howard, and a cousin, Rose Hyman, of Jersey City, N. J., were killed in death.

Spectacular leaps from second story windows saved the lives of Sol Koff, husband of Mrs. Koff, Elizabeth Keisling, 28, a cook, Jane Movietto, a nurse, and Charles Gordon Koff, seven months old. Miss Movietto took the baby in her arms before she jumped and the infant was not injured. Koff was in serious condition from shock and an injured leg while the young women were suffering from bruises and shock.

The fire broke out in the home of Rev. R. J. Currie, where the Koff family was spending the summer. Cause of the blaze had not been determined tonight. It spread so rapidly that persons in the building had hardly any warning.

## When Safe Deposit Boxes Were Luxuries

SEVENTY-THREE years ago a San Francisco newspaper published an advertisement for a firm that had devised a sort of a safe deposit service. The vault was described as "thorough in every respect, having double iron doors, secured by Hobbs patent locks." Cash boxes were rented for two dollars a month, and valuable papers were cared for at a cost of one dollar a month. Today a good-sized box in the vault of a convenient office of the American Trust Company may be rented for a little more than one cent a day. There is nothing so safe as the modern safe deposit vaults.

## STARS OF OLD IN BIG LOOPS ARE SETTING

By HARRY FERGUSON  
United Press Sports Writer

Goose Goslin's arm is gone. This Speaker has slowed down to a walk. Ty Cobb's steady, springy legs have turned to lead. The old boys are passing, leaving it to fellows like Jack Quinn and Clarence Mitchell to beat back the competition of youth and fire.

The 37-year-old Mitchell was pitching back in 1909 when Melvin Ott of the Giants was learning how to walk and talk. Fans in Detroit, Cincinnati, Brooklyn, Philadelphia and St. Louis have been cheering him for 19 years as he waffled his lazy spit-ball up to the plate.

Now he is the mystery man of baseball. Just what magic he conjures to turn back batters at an age when most pitchers have long since been in retirement is puzzling managers in general and John McGraw in particular. Mitchell is poison to the New York Giants and seemingly can strike them out by waving his glove at them.

Get into the grandstand behind home plate someday when Clarence is pitching and watch him send the ball up. It comes in as slow as a 16-pound shot and as big as a balloon. Mitchell himself cannot explain why hitters like Lindstrom, Ott, Jackson, Terry and Welsh are helpless in front of that soft, baby-like delivery.

Some of his success, of course, lies in his wonderful control, but other pitchers have had control and been hammered hard.

Manager Bill McKeehan of the St. Louis Cardinals hired Mitchell to beat the Giants. McGraw will testify that Clarence is doing a great job. Mitchell is the freak of the major leagues—the only left-handed spitball pitcher in captivity.

When all others fail him, Connie Mack falls back on Quinn. Quinn's real name is John Quinn Pious, but at some period during the 44 years of his life, the old master lopped off his last name.

Day after day Quinn goes out to the mound, moistens the ball and proceeds to tie the opposition into knots. The burden of his 44 years seems to slip away, and he is a strong-armed, cunning pitcher who knows the weakness of every batter who ever tried to hit him in the American League.

Back in 1914, when the name of George Stallings was being shouted around the world, the experts decided Quinn had seen his best days. He drifted to Baltimore of the Federal league and from there went to Vernon, of the Pacific Coast circuit. The balm of California's climate did wonders for his arm and in 1918 he came back to the major leagues. Since then Quinn has been working for New York, Boston and Philadelphia in the American League and has been doing a great job for all of them.

Jack also is a member of the fast-dying tribe of spit-ball pitchers, but he also banks heavily upon his ability to put the ball exactly where he wants it.

"There is nothing remarkable about my pitching," he said recently. "I just keep working to retain my control. Then, I'm beginning to believe the younger fellows don't know how to act when they see a spit-ball coming up. Maybe my diet has something to do with my success on hot days. I eat all day on a pint of milk and eat a heavy meal in the evening."

If Quinn keeps on winning games Connie Mack is likely to decide to put all his pitchers on a milk diet.

## Where Gene and Wife-to-Be Will Reside

Here is the old-fashioned farmhouse, near Stamford, Conn., said to be nearly 200 years old, which was recently bought by Gene Tunney and which is now being prepared for his occupancy after his marriage to Miss Mary Josephine Lauder of Greenwich, Conn.

## Ed Sullivan's SPORT WHIRL

For the first time since 1915 Tex Rickard finds his ring monopoly seriously threatened by rival promoters. Rickard's monopoly was established in 1915 when Jack Dempsey, under contract to Rickard, battered the hulking Jess Willard to the canvas.

Dempsey's victory gave Rickard an iron grip on the heavyweight championship, and it was his possession of the heavyweight championship, the richest prize of the ring, that made Rickard the czar of the Manly Art of Self-Defense.

At various times, other promoters have attempted to invade the field.

They found it as profitable as butting their heads into a stone wall. They could steal little fights away from Tex, but when they tried to raid Rickard's herd of heavyweights they found it hopeless. The heavyweights would fight for the promoter who held the title and Rickard could offer all of them a shot at the title.

Had Tom Heeney beaten Gene Tunney the other night, even the retirement of Tunney would not have weakened Rickard's grip.

Heeney, when he signed the contract as challenger, also signed another that bound him to fight for Rickard if he had won the title.

When Heeney was beaten and Tunney retired, the links in the Rickardian armor were shattered, both ways.

The heavyweight championship, for the first time since 1915, was wide open to any promoter who could first sign the challengers.

## Suits That Last Entire Lifetime Promised Soon

NEW ORLEANS, Aug. 14.—(U.P.)—A suit of clothes durable and strong enough to last for several generations and look its best for more than the average linen suit of today, was promised the American business man here recently by John S. Mioton, president of the Ramie Corporation of America which has its headquarters in New Orleans.

Mioton told the United Press that some cultivation of the ramie plant was already underway in the United States and machinery for separating the fiber from the plant, invented by a Frenchman, was being imported.

The cloth made from the ramie plant looks like a good grade of linen and a shirt made from the fiber will last at least 10 years. The cloth is also used in making men's suits and women's dresses. It has a silken luster which adds greatly to its attractiveness, he said.

The Ramie plant requires very little cultivation and resists alike extreme heat and cold weather, and replanting is necessary only at intervals of about 25 years.

A small space of ground was planted with ramie as an experiment here about 35 years ago. Now the growth is hardy and thriving, despite the hardship of neglect and lack of cultivation, Mioton said.

Louisiana particularly and the southern coast and southeastern states generally are adapted to the growth of ramie and before many years Mioton expects to see the plant take its place as one of the chief textile industries of the country.

In addition to the use of the plant's fiber for cloth-making, Mioton said a good grade of paper is made from the waste pulp.

### FUNERAL COSTS 65 CENTS

PARIS, Aug. 14.—(U.P.)—You can still be buried in Paris for 65 cents, but there are indications that the price is going up.

The municipal burial services—in France all funerals are under the control of the local authorities, who must seal all coffins and register all interments—report that during the last year various funerals in Paris have caused a deficit of more than 5,000,000 francs.

**OROVILLE:** Kind of fish, rainbow trout. Best streams, all streams around here. Best bait, salmon eggs. Best flies, Royal Coachman, yellow body. Water condition, low and clear.

**Lake Almanor:** Fishing at Lake Almanor at present is good. Large fish (5 and 6 pounds) are being taken daily. Live bait being used, also spinner with red flannel and bacon rind as a trailer. Mill this time. Flies can be used in both places. Royal Coachman and Blue Bottle being favorite with large hooks.

tion in their first session. Several meetings will be necessary before this matter is finally disposed of.

### Indian Herbs

Is a good family medicine composed principally of herbs, roots and barks. An excellent liver regulator for sluggish bowels, kidney and constipation. You can get the money back at any of the agencies where you bought them if Indian Herb Compound does not benefit you after directions have been followed.

Indian Herbs are for sale by all local drug stores and at many other business places whose addresses are listed on the second page of the circular in each free sample given at all the local agencies. Geo. W. McPherson, resident agent for The Great American Herb Co., 606 Macdonald avenue.

## MILLE LENGLEN QUILTS TENNIS. IS OVERWEIGHT

PARIS, Aug. 14.—(U.P.)—Suzanne Lenglen has no illusions about perpetual youth. She knows that her heyday is past and has decided that in the future she will play tennis "only for my friends and papa."

"Pere" Lenglen, perhaps the greatest teacher of tennis in the history of the sport and the man who taught his daughter to become a world's champion by ordering six hours work every day, today said Suzanne has hung up her rackets and is finished with tennis. For three months she has not played and has turned down many attractive professional offers.

"Suzanne has had enough tennis for her whole lifetime," "Pere" Lenglen said.

"From time to time she may play for the pleasure of her friends or her mother and myself, but I doubt if she will ever play before the public again. It is foolish to talk about a revenge match between my girl and Miss Wills. Such a 'battle royal' is unfortunately out of the question."

"Whether she won or lost, Suzanne would bring ridicule on French sport if she opposed Miss Wills again. We are not so hard up that Suzanne has to accept such a match."

"Professional tennis is not a success. A good player cannot make as good a living in that sport as a good boxer, football

player or skater could make. But Suzanne does not regret having left the amateur ranks, for she had an agreeable journey through America."

What "Pere" Lenglen did not stay, but what French tennis critics have discovered is that Suzanne is about 18 pounds over her best playing weight, and it is doubtful if she could ever again get down to the poundage at which she plays best, 114 pounds as at Cannes in 1926.

## OAKS DEFEAT PORTLAND IN 11 INNINGS

SAN FRANCISCO, Aug. 14.—(U.P.)—The three leaders of the Coast league won easily today and the feature of the circuit was ten innings of scoreless baseball between Oaks and Portland.

Craghead of Oakland and Yerkes of Portland hurled shutout ball for 10 innings and then Yerkes weakened in the 11th to let the Oaks win, 2 to 0. Oakland made eight hits and the Beavers five.

The league leading Solons beat Seattle, 5 to 0. Keating, Senator pitcher allowed seven hits.

Hollywood, three games behind Sacramento, scored three runs in each of the first three innings and four in the seventh to beat the Missions, 13 to 3.

Taking the lead in the first inning and never relinquishing it, the Seals beat Los Angeles, 10 to 5. Both teams made three errors.

## Football Practice Commences At Hi.

Scheduled to meet Oakland Tech in a practice contest here August 24, the Richmond High school gridiron squad under Coach Ivan Hill is holding daily workouts in preparation for the game.

A large squad has turned out and Hill expects to build a strong contender this season, using some of his old lettermen as mainstays.

## GAS COMPANY SEEKS OKEH OF LOW RATES

At a hearing before the California State Railroad Commission held at the city hall, yesterday, the Pacific Gas and Electric company requested the commission to approve for the institution of a new schedule of rates, through which, it is stated there will result a saving of approximately \$1,000,000 to consumers.

The new reduced schedule will apply to the Richmond district to the Interior Western States Gas and Electric company, which includes the City of Richmond, El Cerrito, San Pablo and adjacent territory. Some 5,000 consumers will be benefited by the new schedule.

The principal cut in rates become effective to lighting consumers. Where the maximum rate for lighting has been 7 cent per kilowatt hour, it will now be 5 cents per kilowatt hour. Under the new lighting schedule the old minimum charge of \$1.00 will be done away with and in its place there will be a small service charge. The top rate for electricity is heavily slashed, thus quickly absorbing the service charge and making the monthly bills for consumers considerably lower in proportion to the current actually used heretofore.

For example, in incorporated cities and towns the dollar minimum charge gives way to a 50 cent service charge and the top rate for electricity used becomes 5 cent per kilowatt hour. In rural territories the minimum charge of \$1.00 is replaced by a service charge of 70 cents. It is proposed to have the new lighting schedule go into effect as of August 1, 1928. This represents a large voluntary reduction on the part of the company. The company's object in reducing its rates is primarily to encourage a greater use of electricity.

Attending the meeting were: Commissioner E. J. Gannon, Senator Charles P. Cutten, on behalf of the gas company and City

### GETS A \$50 FINE

BUFFALO, Aug. 14 (U.P.)—Richard Wells was so unnerved at the sight of a policeman that he ran. As he did so a truck came around the corner and Richard just managed to hop on. He was a bit surprised when willing hands reached out and hauled him inside. He was a trifle more surprised to find that it was the patrol wagon. He was fined \$50 for intoxication.

## DAMAGE TOLL IN BIG GALE ON INCREASE

(Continued from Page One) Sopocopsis, 12 miles west of here, Apalachicola and Carrabelle, further west, escaped damage, reports said.

Trees were blown throughout the city, but no injuries occurred. Water flooded the basements of several houses.

TAMPA, Fla., Aug. 14 (U.P.)—No injuries were reported from the tropical hurricane which struck Tallahassee, the state capital, today after moving inland from the Gulf of Mexico.

Communication in an area of 30 miles around the capital was disrupted, streets in the city and highways leading to it were damaged, telephone poles were blown down and basements flooded.

A wind of 45 miles velocity and increasing in intensity was blowing from the northeast and a drenching rain was falling in sheets; darkness was threatened to parts of the city tonight as several power lines were blown down.

Trains were running late into Tallahassee, especially from Jacksonville, and mail was not being carried.

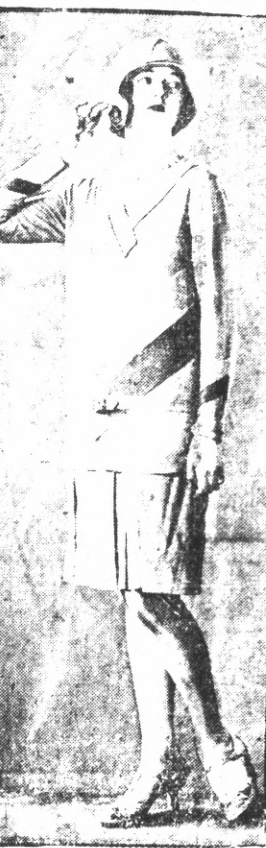

The center of the storm was believed to have passed to the west of Tallahassee. Reports from Midway, 10 miles west of the capital, said that several houses were unroofed but no one was injured. Trees were blown down across railway tracks there.

Ships arriving in Pensacola had no report to make of unduly heavy weather, and the naval air station there continued its regular program today.

Scouts To Plan Year's Program Troop No. 3 of Boy Scouts will meet tonight in Scout hall, Eighth street and Ohio avenue, for the first meeting after the summer vacation period. All members are urged to be present as important business will be discussed and the program for the year outlined. Louis Rasmussen is scoutmaster.

## Police To War On Bad Brakes

Continued From Page One bills for a break test. Machines having the safety council official stickers, showing that their brakes have already been examined, will not be molested by the police. It was announced. The stickers, it was said, can only be obtained by the motorist, by having a careful examination made by authorized brake testing establishments of which there are nearly two hundred, equipped with stickers.

Drivers found with brakes that do not control the car in the manner prescribed by the law, will be cited.

## FIRST BUDGET HEARING TO BE HELD MONDAY

MARTINEZ, Aug. 14—The first budget hearing in Contra Costa county today is the first of its character of record will take place next Monday before the Board of Supervisors, according to formal announcement to be published tomorrow by County Clerk J. H. Wells.

As a basis for computing tax rates in the past years a form of budget, extremely simple, but wholly intelligible and workable, has been made up in past years, but to comply with the new law copies of the budget must be prepared and submitted by any taxpayer who desires to scan the figures and the public invited to attend the hearing and register approval or disapproval of the items therein listed.

Under the budget as prepared there is a cut of close to \$20,000 under last year's total expenditures, but receipts from sources outside the budget are expected to raise considerably in excess of this figure.

The 1927-28 expenditures totaled \$4,617,796.05. The total of financial requirements as reported by all county government departments and officials amounted to \$4,588,358. Cuts in one place and additions in others made by the Supervisors last week, the additions consisting chiefly of \$20,000 for a Veterans' Memorial Building in Bay Point and \$22,500 for a similar purpose in Concord, brought the total proposed to be allowed and to raise which a commensurate tax rate will be levied, to the sum total of \$4,620,960.

### Lad Subscribes To Campaign Fund With Bill For \$2

PALO ALTO, Aug. 14 (U.P.)—The \$3,000,000 Republican campaign goal is \$2 nearer realization as a result of a contribution for that amount received by Herbert Hoover from Bob Taylor of Charleston, West Virginia, a lad apparently about nine years old.

When George Akerson, secretary to the Republican nominee, was looking through the mail today he found the following letter from which flattered a two dollar bill.

"Dear Sir: My mother read in the paper where a little boy sent Alfred A. Smith \$1 for campaign expenses. Please accept \$2 for campaign expenses. I want to raise him \$1. Sincerely your admirer, Bob Taylor."

The letter was scrawled in a childish hand, readily legible and with all the words correctly spelled. It was given to Hoover by the following reply:

"My Dear Bob: I am very glad to have your good letter with the \$2. I have sent the money to Mr. Nutt who is treasurer of the Republican committee. It will be spent to carry on the campaign. I like your spirit and I like your picture—shows the kind of fellow it would be good to have on one's side in a scrap. Yours faithfully, Herbert Hoover."

### New Store Will Open Saturday

The new Richmond headquarters of the Federal Outfitting company, located on Macdonald avenue adjoining the Mechanics bank will open Saturday, according to an announcement made yesterday by S. F. Hepp, manager.

Workers are busy completing the finishing details and will work night and day to insure everything being in readiness for the opening.

"The large stock with which our new store here will be supplied," said Hepp, "is ready for display. The new store will be open Saturday, as we have promised. We realize that thousands of Richmond people have been waiting for our opening and we are sparing no effort to have the opening on time. We promise the people of Richmond that the new store and its stock and service will be all and more than they expect."

## EARLY COUNT SHOWS HUGE DRY BALLOT

At a state constitutional and other 14-15.

Sixty-three candidates for major offices, including the governorship and the United States senators, today, were in the field.

Seven candidates—six Republicans and five Democrats sought to lead their parties to victory in the gubernatorial contest.

Among the Republicans was State's attorney General Edward C. Turner, an avowed wet, who based his campaign on demands for modification of the dry laws and for "the suppression of public utilities interests."

Turner's chief opponents were Myers Y. Cooper of Cincinnati and Congressman James I. Begg of Sandusky, who fought for support of the state Anti-Saloon League.

In the Democratic race the wets and dries again were opposed in the candidacies of Peter Witt, of Cleveland, a wet and ardent Smith supporter, and Congressman Martin L. Davey, of Kent, who was endorsed by the Anti-Saloon body.

The senatorial races were more or less devoid of general interest, although nominations for the long and short terms were at stake.

In the long-term race, U. S. Senator Simon D. Fess, Republican, was unopposed. Five candidates sought a democratic nomination, among them former congressman George White of Marquette and State Director of Agriculture Charles V. Truax.

In the republican short term race, Congressman Theodore E. Burton of Cleveland, was expected to win easily over Chief Justice Carrington T. Marshall of the state supreme court.

U. S. Senator Cyrus Lecher, of Cleveland, and Graham P. Hunt, of Cincinnati, were opposed in the democratic contest.

The first 11 precincts heard from gave for governor (Republican) Begg, 1080; Cooper 1144; Turner 192.

Democrats: Davey 680; Bloom 130; Witt, 3.

For U. S. Senator, short term, (Republican): Burton, 880; Marshall, 128.

Democrats: Hunt, 112; Lecher, 664.

### HOT OFF THE GRIDDLE

(Continued from Page 1)

THOSE WHO DEPLORE THE sensational news of the day have their memories refreshed by the death of Delphin Delmas, general of Harry Thaw's legal battery when the millionaire murderer was on trial for his life. It was Delmas who coined the phrase "de mental Americana" as descriptive of the "unwritten law." The Thaw case was a carnival for the lawyers and the press. Rows of people sat on curbstones in New York feverishly reading newspapers carrying all details. "Conservative" papers were not outdone and printed everything. Delmas was the ringmaster. When the American courts hold a circus they never have less than three rings.

A SOCIETY DENTIST IN NEW Jersey, living in a beautiful home beyond his means, decides he can support his wife and children no longer and kills them with the cold-bloodedness of an official executioner. In jail he blames his well-to-do father, who was not inclined to come to his financial rescue. The father did not make his money by living beyond his income. That is the first lesson the foolish dentist should have learned. The habit of extravagance is the hardest one to break. In this case it is marching the dentist to the electric chair.

Funeral services for Harry Hennessey, 40, former standard Oil employee, who passed away last Saturday at the St. Helena sanitarium, after a long illness, were held from the Bert Curry parlors yesterday afternoon at 2:30 o'clock under the direction of the Richmond lodge of Elks. Rev. Thomas A. Boyer officiated. Onethat tribe of Redmen were in charge of the cremation services at the Berkeley crematory.

Hennessey was a native of Ireland and resident of the state for 26 years. Surviving him are a widow, Mrs. Margaret Hennessey; a son, Torrance Hennessey; two brothers, Walter and Remsey of New York and a sister, Rose Hennessey of Paris.

## WOMAN DEFIES GOVERNMENT; ARM GUARDS PATROL ESTATE

(Continued from Page 1)

by the county along the coast line to determine the mean tide.

Armed guards who constantly patrol the estate drove back the county representatives and today R. D. Steele, government agent, attempted to do the work.

The guards refused to permit him to stay on the land. Steele reported he was warned "and don't come back. If you do you'll go out in a way that will make sure you will never come back here again."

Attorneys for Mrs. Rindge said a meeting with officials would be held tomorrow and permission for the survey given, but county surveyor J. E. Rockhold said, "We shall certainly proceed with federal aid if the Rindge interests do not accord us immediate opportunity to survey. We have waited long enough now."

The present dispute is an incident in the long battle of Mrs. Rindge.

The state won its first fight when land was condemned for construction of a road through the property along the beach, but the victory was incomplete.

Mrs. Rindge immediately had constructed a high barbed wire fence on both sides of the road, which prevented travelers from stepping on the beach or from going into the woods.

The armed and mounted men, who are unafraid and absolutely loyal to their woman employer, ride through the tract ever alert to eject the interloper. Not usually gentle as they do it, but charges of roughness have been dismissed in court, for Mrs. Rindge owns the land.

Immediately adjacent to the barbed wire fence, at both ends of the land, are the flimsy little beach cottages, for more to be constructed, the estate will have to be subdivided.

Major LeRoy Bartlett of the Alameda county civil service commission addressed the members of the Richmond Exchange club in the Hotel Carquinez last night. Major Bartlett is a member of the Oakland Exchange club and is a graduate of West Point.

He explained the system used in examining applicants for various positions of civil service and used as examples sample examination questions of a true and false nature. Considerable merriment was occasioned by the members trying to answer several of the questions.

In the absence of Henry Solto, who is ill, H. H. Hadley acted as chairman of the day. Barney Weisgerber furnished the musical program. John Moore will be the chairman of the next meeting.

LOW RATES MAKE ELECTRIC COOKING ECONOMICAL

**1542 electric ranges just installed in our customers' homes**

The Electric Range gives beauty, cleanliness and perfect baking to women who love modern methods. That is the reason why 1542 of our customers installed Electric Ranges in their homes from May 1st to June 23rd.

The Electric Range has white porcelain enamel that makes kitchens attractive. It bakes perfectly. And it does it automatically. The oven heats up to 400 degrees in 9 to 11 minutes as fast as one can mix biscuits. The open coil cooking elements are now made smaller to fit your pans. Heat that was formerly wasted goes to work. Food cooks faster—less electricity is used.

While you're downtown, stop in and see the new Electric Ranges.
